We have two seats opening up on the FAOEM Board. If you are interesting in running for a position, please email me a 3-5 sentence paragraph briefly introducing yourself to the group.

For those of you who will attend the annual meeting, please bring your ideas about how we can plan programs which will capture your interest in the future. As you may recall, this year we ran several ideas by the group, and there simply was not adequate interest to justify the time, effort and potential expense of offering the programs. So if you are wondering why we don't offer any other meetings or trainings outside of the annual Orlando Meeting, it's because there is insufficient commitment or interest. I would love to hear your ideas on how we could change this, and bring our group together for more frequent gatherings.
